Marlene H. Dortch Secretary Federal Communications Commission 445 12th Street SW Washington, DC 20554

Re:

Notice of Ex Parte Communication: Expanding the Economic and Innovation Opportunities of Spectrum Through Incentive Auctions, GN Docket No. 12-268; Amendment of the Commission's Rules with Regard to Commercial Operations in the 3550-3650 MHz Band, GN Docket No. 12-354; Revision of Part 15 of the Commission's Rules to Permit Unlicensed National Information Infrastructure (U-NII) Devices in the 5 GHz Band, ET Docket No. 13-49

Dear Ms. Dortch:

On October 30, 2013, Austin Schlick, Johanna Shelton, and I, of Google Inc., met with Commissioner Jessica Rosenworcel and David Goldman, Senior Legal Advisor to Commissioner Rosenworcel.

We expressed Google's support for a balanced spectrum policy that relies on both licensed and unlicensed approaches. In particular, with respect to the Commission's pending proceeding regarding a broadcast incentive auction, we emphasized that a successful auction must free up licensed spectrum for mobile broadband. We also advocated that unlicensed operation should be permitted in the guard band(s)/duplex gap, Channel 37, and the two broadcast channels currently used exclusively by wireless microphone users.

We also expressed support for the Commission's proposal to open up the 3550-3700 MHz band for commercial wireless services on a shared basis, noting that making progress in this band will demonstrate that wireless devices can share spectrum with federal and satellite users without causing harmful interference to incumbent systems. We further urged that the Commission make additional spectrum available for unlicensed use in the 5 GHz band.

Pursuant to the Commission's rules, this notice is being filed in the above-referenced dockets for inclusion in the public record. Please contact me should you have any questions.

Respectfully submitted,

apara Suid?

Aparna Sridhar Telecom Policy Counsel

Google Inc.
